What resources and maps to use to find street parking?

what are some good resources? Is there any app for Android ?

Thank you so much

And what are our options of finding free parking near Bryant Park at 4:00 p.m. Friday.?

I guess I should be ready to walk 5 6 avenues if I need to...

these

OK one from NYC.gov <https://www.nyc.gov/html/dot/html/motorist/parking-rates.shtml>

this one use to work <https://www.opencurb.nyc/>

also fails <https://www.freeparknyc.com/colored> but they got an app BUT half of Manhattan has no signs for streets

<https://play.google.com/store/apps/details?id=com.freeparknyc.mvp&pli=1>

I see it's only for paid parking lots?

nothing for street parking?

There should be a toggle button, in the map, to add the street parking. And then its color coded to differentiate between free and metered.
